Spring 2025

Dear Patient,

Spring is a season of renewal, making it the perfect time to refresh and revitalize your skin. At Madfes Dermatology & Aesthetics Group, we specialize in advanced dermatology and aesthetic treatments to help you unlock your skin's full potential. Whether you're aiming to enhance your glow, tighten and tone, or prevent signs of aging, we offer personalized solutions tailored to your unique skin needs, ensuring you age beautifully all year round.

**Our Advanced Treatments Include:**

- **Laser, Radiofrequency & Coring Therapies**– Fraxel/CO2 Resurfacing, Microneedling, Micro-Coring, Ultraclear and Ellacor. Addresses fine lines, texture, and tone for a glowing complexion.
- **Neurotoxins, Biostimulators & Fillers** – Replenish volume, smooth wrinkles, and unveil a refreshed, youthful appearance.
- **Stem Cell Rejuvenation – Fat Injections, PRP & PRF.** Unlock the benefits of regenerative medicine for lasting skin and hair health.

As always, don't forget to take advantage of our **ACNE CENTER OF EXCELLENCE**, where we provide specialized care for all your acne-related concerns.

- **Introducing! Sebacia Acne Laser Treatment:** A cutting-edge solution that combines laser technology with a unique gold microparticle solution to target acne at its source, reduce active breakouts, prevent future flare-ups, and improve skin clarity with no downtime. Ideal for those seeking a long-term solution to stubborn acne, this treatment requires just 3 sessions over 3 weeks and delivers lasting results, shown to last up to 12 months and beyond. In addition to treating acne, it helps with oily skin and large pores. After treatment, you may experience some redness, which typically fades within 1-2 hours, so you won't miss classes or work. In addition, we offer a range of other advanced laser treatments, including **Isolaz, Accure, AviClear, and Acne Dual.**

Our office provides expert medical and surgical care for both adults and children, including **skin cancer screening**, rashes, allergy patch testing, rosacea, hyperhidrosis (MiraDry), melasma, and hairloss. We perform surgical removal of growths/tumors, fat and filler injections, Botox, Dysport, Xeomin, Jeuveau, Daxxify, Thermage, ThermiRF, photodynamic therapy, Chemical peels, **Emsella**, lasers, and micro-needling; facial tightening – **Sofwave**, Secret RF, ThermiTight.

Remember to update your skincare regimen with each season and schedule your skin cancer exam. Scan QR code to visit our online store!

We are here for your health and beauty!
